CLASS WORK

Write a function that, per each PLC cycle, implements the following operations

IF MW10 > MW20 **THEN** M0.0 = 1
ELSE IF MW10 < MW20 **THEN** M0.1 =1

Also, write two function variants in which MW10 and MW20 are replaced respectively by

- DBW10 and DBW20 of DB1
- DBW10 of DB1 and DBW20 of DB2
